Hello.

I am writing to inform you that I will not eat genetically engineered food. I find this technology absoloutely irresponsible and appalling. I am especially disappointed in the FDA, an agency I pay for with tax money, hasn't mandated labeling of genetically engineered food.

From this day forward I will only eat organic (CA Org. Food Act) foods and my own homegrown vegetables. I am also against hormones in milk and meat and thats why I am vegetarian (vegan). Get your act together! Protect our food!
