To Whom It May Concern,

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped

98N-1265

C 3206

across state lines from specialized compounding pharmacies.

I use two prescriptions compounded by the College Pharmacy in Colorado. One is a natural estrogen, the other a natural thyroid medication that I need in order to function. I have tried other thyroid prescriptions that have not been at all sucessful.

The passage of this memorandum would be a travesty to people like me. I'm sure the big drug companies are behind this.

Sincerely,

(Mrs.) Rhoda Marks
