Re: Docket 99P-0033/CP.1.

Dear Commissioner

Please act on the petition to stop feeding dead animals to our cows. They should not be forced to eat meat - they are not meat eaters. - especially from dead animals.

Also, why cant we be more humane. Why isn't there more control over the way farm animals are treated. Pigs and cows are skinned and boiled while still alive. Must this torture go on? Pigs kept in tiny crates veal calves in 22" crates. This must be stopped please help out - you can help. Thanks Lorraine Hertel (very concerned)
