Dr. Jane Henney
Comm. U.S. FDA
5600 Fishers Ln
Rockville Md

Dear Dr. Henny,
I urge the F.D.A. to ban human antibiotics in animals feeds. The growing resistance to antibiotics in humans is fast becoming a crisis. Overuse is the reason & farmers are using 40% of all antibiotics on their farm animals for consumption. This must stop & I know a 160 A farm & have raised cattle

Sincerely, Natalie Halpin
