Dear Ms Henney,

It is time to stop the rampant misuse of antibiotics in animal feeds in the U.S.

I am horrified by the fact that many infections are now resistant to most antibiotics and I dont want to contribute to the problem simply by eating chicken which contains unknown amounts of these drugs.

I know that America has one of the safest food supplies in the world but it has come to the point that everything we eat has additives we may be unaware of and which may affect us in unexpected ways.

I want to know when I eat my chicken dinner that what I see is what I get. Please revoke the approved uses of antibiotics in animal feed for poultry hog + cattle -

99P-0483

Thank you

C933

Jennifer Hewitson
