Dear Ms. Henney,

2878 '99 JUN 14 P1:51

I am a member of the Center for Science in the Public Interest (CSPI), and am against the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics and endangers human lives. This leaves physicians with no way to treat life threatening bacterial infections in humans. I throughly and completely support the petition filed by CSPI. Thank you.

Sincerely,
Donna Abel
