Rockville, Maryland 20857

Dear Commissioner:

I'm very interested in urging you to ban the use of antibiotics in animal feed.

Like many others I am allergic to penicillin. Therefore, unless I can find range chicken and turkey, I'm limited to eating ocean-caught fish for protein. Need I say I'm almost a vegetarian because of the feed fed animals in order to hasten their maturity, etc.

I support the petition filed by the Center for Science in the Public Interest. I trust you will do well.

Respectfully,
Phyllis M. Powell
