Dear Commissioner Henney,

As a mother of young children, a volunteer Girl Scout Leader, an active member of the Church community, and a concerned and caring inhabitant of this country, I urge you to do all you can to BAN THE USE OF MEDICALLY USEFUL ANTIBIOTICS IN ANIMAL FEED. We see and hear about bacteria resistant to those anti-biotics, leaving the good citizens of our country threatened by deadly infections.

You have been blessed with a position of power. Please make your legacy meaningful.

Sincerely yours,
Donna L. diGioia
