4492 Henney, Commissioner
P2:33

Dear Commissioner Henney:

I am writing to you to express my concern over the safety of our food. I believe all Americans have the right to know whether their food has been genetically altered. Genetically altered foods pose real risks to us all.

I know about the lawsuit filed in May 1999 to challenge ~~USDA's~~ FDA's policy on not labelling "transgenic foods". I am fully in support of the lawsuit. All such foods ~~such~~ should be prominently labeled and undergo rigorous safety tests. The FDA is mandated to protect the public's health - and the FDA needs to impose better food labeling laws to protect the public from untested foods. I do not want to be a guinea pig for Monsanto any longer. I have already given up milk because of unlabeled dairy foods that may or may not →
