Irradiated foods and irradiated ingredients all must be very clearly labeled IRRADIATED in plain sight. This is imperative! The consumer MUST know this information to make an informed intelligent decision when deciding whether or not to purchase this product.

All Hyperbonic products must be clearly labeled Hyperbonic. I will never buy nor eat Hyperbonic because the "sores" (an over-ripened area) are worse than any ghastly human sores I've seen.

Please do your job responsibly. Thank you!
