June 14, 1999

I am writing to express my serious concern over the pending decision to remove the irradiation marking on foods. Irradiated foods need to be prominently labeled. While irradiation is currently considered "safe" by the FDA, many people disagree w/ this, and they have the right to know how their food has been processed. Please keep irradiation labels prominantly displayed.

JUN 24 10:40

Sincerely,
Rebecca Hartman
