Re: 99P-1340/CP
Petition to Have Eternity eau de parfum Misbranded

Dear Sir or Madam:

In May, 1999 the Environmental Health Network (EHN), submitted the above petition to have Calvin Klein's Eternity eau de parfum declared misbranded. I am writing because I support this petition.

"Eternity" contains certain toxic ingredients and other ingredients whose safety have not been substantiated. There is no warning label on its packaging.

The harmful chemicals currently used in Eternity and other perfumes may affect the health of many people, including people with asthma, chemical

99P-1340

sensitivities, chronic fatigue and other environmental illnesses. Lives have been completely disrupted because of exposure to these harmful chemicals.

Please act on behalf of the millions of people who are adversely affected. My own daughter cannot leave her home, do shopping, be with other people who expose her to these chemicals. It is a very sad, disabling illness. Thank you

Madeline Katz
