5/24/99

Dear Sir/Madam:

6178 '99 JUL -2 P2:26

I feel very proud to submit to you mine and others rejection of Monsanto and their profiteering, destructive practices. I cannot understand in this day and age, with ALL the evidence, how these issues can seem to those in the gov't to be positive - life enhancing - solutions! I will continue to gather as many signatures as I can - I will continue to buy organic.
