To whom it may concern:

It has been called to my attention that the idea of xenographs is being discussed. I am writing to protest the idea. I feel that it's very wrong. Just because the physical bodies of humans and other animals may be similar, the organs of one species should stay within the species. I feel very strongly against this idea, and I'm willing to do what I have to to convince others that it's wrong to even consider the xenographs. Thanks for your time.

Sincerely,

Mary Wargo
