Docket # 99P-1340/CP1

9431 '99 JUL 13 P2:12

Dear Sir or Madam:

I support this petition to have Calvin Klein's "Eternity eau de parfum" declared misbranded.

A warning label is needed on the packaging of any fragrance containing toxic ingredients or chemicals that have not been proven safe.

I have a daughter who gets migraines from petrochemical-based fragrances. People with asthma also need to be warned about toxic ingredients.

Thank you for standing up for people whose health is damaged by toxins.

Sincerely,
Judy Stephenson

C165
