FREMONT INDIAN PETROGLYPHS
Capitol Reef National Park, Utah

For what reason did these people carve the petroglyphs in the rock — to leave a message for following generations or perhaps just the desire to create?

Color by Virgil Olson

Dear Com Henney —
I'm afraid to eat chicken because of the hormones in it. I can afford not to, but some must because it's cheap. Keep antibiotics out of it, for the children's sake. Sara Atkinson
