June 8, 1999

Attn: Jane E Henney

Dear Madam,

So that I may be fully informed when making food purchases, please see that irradiated foods are labeled prominently. I need an easy to read statement on the front of the package. A universally recognizable symbol may be helpful, also.

Attn: Jane E. Henney June 8, 1999

Dear Madam,

I believe we need to immediately ban the use of medically [illegible] antibiotics in animal feed.

7805 99 JUL 12 A10:18

As a nursing assistant in Lawrence Kansas, I have seen the effects of this dangerous action. I have seen it first hand at work, and it is a frustrating and frightening experience.

Because of this, I support the position filed by Center for Science in the Public Interest.

Sincerely,

Melinda L. Brettbauer CNA
