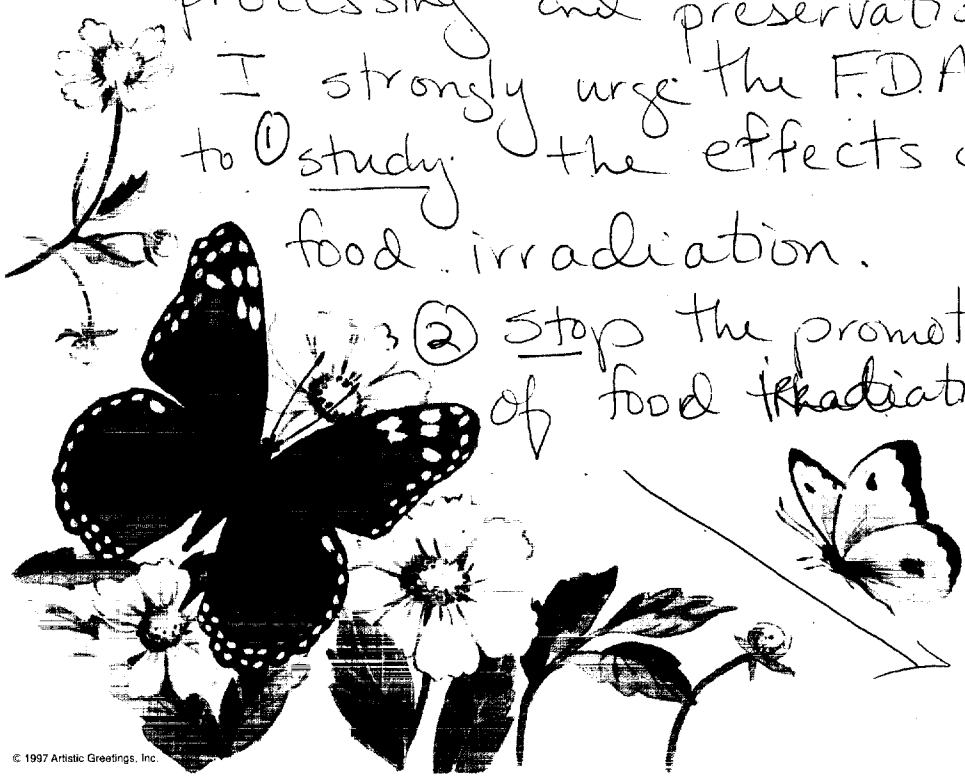
To Whom it May Concern;
Re: Docket # 98N-1038
I am writing 98 JUL 12 A10:36
opposition to all technologies
that use radiation in food
processing and preservation.
I strongly urge the F.D.A.
to (1) study the effects of
food irradiation.
(2) stop the promotion
of food irradiation



98N-1038

C 3345

③ Insist that all Irradiated Food Products that are on the market are prominently labeled.

I support my local organic farmers and hope that in the near (now!) future the FDA would use all their political and economic force to do the same.

Sincerely,

Cynthia Vazquez
