Re Docket #98N-1038

I am against the proposal to allow the sale of irradiated food without any labeling. Labeling of cold pasteurization must be upheld. We, the consumers must be allowed to know what is in and has been done to our food sources. Without labeling we will not be aware of the chemical changes that have taken place in our food. We must be allowed to have the freedom of choice for our food. Without labeling we do not have the freedom to choice. Please reject this proposal.

Thank you for your time

In peace
