Re: Docket 98N-1038

To Whom It May Concern:

I am demanding that all irradiated products be labeled accordingly in such a manner that it is clearly obvious that the food being eaten has been irradiated. Any other method of identifying or not identifying irradiated products, I consider to be deceitful and not in

the best interests of the consuming public.

I am notifying my Congressperson and Senators of my opinion on this extremely important issue.

In addition to demanding the labeling of all irradiated products or components thereof, any misleading labeling is, again, deceitful, dishonest, and caters to the lobbyists who would benefit from non-labeling or inaccurate labeling of food products.

Sincerely,
