Dear Commissioner Henney:

I am very concerned about the safety of genetically altered food. Such foods pose risks to family farmers, the environment and the health of my family.

I am writing to express support for the lawsuit requiring safety testing and complete labels informing consumers if food has been genetically altered.

The FDA's purpose is to assure public safety and health for all Americans. Please live up to this trust and provide consumers with the information we need.

Sincerely,
Ruth M. Sekosinsky
(Retired Educator)
