Jane E. Henney, Commissioner
Food and Drug Administration

Dear Ms. Henney,

I am writing to express my deep concern over the fact that genetically engineered foods are reaching the market place without being labled as such.

Science is not certain that these foods are safe therefore people have a right and a need to know what they are eating and feeding their families.

I strongly urge you to take whatever steps are necessary to ensure that genetically engineered foods and products are clearly labeled accordingly.

92N-0139

C5668

Thank you for your consideration.

Respectfully,

Mary Delano
