6/28/99

Dear Commissioner,

7765 '99 JUL 12 A10:06

Do you remember telling your children not to put that in their mouth because "you don't know where it's been"? This is what you ask us to do everyday through non regulation or labeling of G.E. foods.

As a result I will only shop at organic markets and tell everyone I know to do the same. It seems you are more interested in the future of BIOTECH/Monsanto than the health of the American people and are even not giving us the choice, but in fact prohibiting the Non GE foods from labeling such as Wall. Could you please explain this to me?

This is totally unacceptable and urge you to change your position on this very important matter.

Sincerely,

Julie Reid
