Re: Docket No. 99D 0557

99 JUL 15 A11:26

Gentlemen:

I wish to express my opinion as to the use of Xenografts in humans.

The risks of viral transmission are, indeed, very great. I understand that pig viruses are currently under consideration.

The U.S. should follow Europe's lead in banning such experiments. At present, 40 European Countries have recommended a world-wide ban on Xenotransplants.

Is there anything more to say??

Sincerely yours,
Lucile Benoit

P.S. An answer would be appreciated!
