F.D.A. July 11, 1999

Docket No. 98N-1038
IRRADIATION IN THE PRODUCTION
PROCESSING AND HANDLING OF FOOD.

00800 '99 JUL 16 P1:38

I oppose the removal of Labeling.
I oppose legalized poisening of food. One more aspect of a government so completely morally bankrupt, that No aspect of service to the Public remains, save some political horshoot. It has never gotten better. The Federal Government is run by insane bureaucracies which need No legal restraint to pass regulations against human decency. Most Americans are brain-dead but not all. God forbid we have sunk to this level or lower. Shame on you.

Jeff Brady
