0654 '99 JUL 19 P3:39

To Whom it May Concern:

I oppose the Draft Memorandum being proposed by the FDA. In particular I strongly object to the definition of "inordinate amount" which restricts my compounding pharmacy to send me my compounded medications which I truly need.

The Drug Companies CAN NOT provide the perceptions I am currently receiving.

Please do not make our society so uniform, just because the Drug Companies want all the money.

I am an individual & my Doctor and pharmacists are the best people to help me get the medications I need. NOT the Drug Companies MASS production.

Thank you -

Richard Moss
