June 11, 1999

Dear Dr. Jane Henney,

Won't you please take action on seeing that human antibiotics are soon banned from being added to all animal and fowl feeds!

8554 99 JUL 12 P3:32

We are already in a crisis situation with our antibiotics not able to kill bacteria like they once did — and people are dying because of it —

Since we have to eat, we are being further endangered by this practice & are given no choice!

I realize the farmers want a quick return on their investments, but they too, could easily die, if this practice continues.

Thanks for listening! Pat Crew Jacksonville, FL
