8520 '99 JUL 12 P3:27

Dear Dr. Henney:

With the widespread, and often excessive, use of antibiotics in modern society, some ill-effects have begun to appear. In particular, I am referring to the bacteria that are becoming resistant to multiple antibiotics.

In an effort to curb this trend, I am writing to demonstrate my support for the FDA's to deny approval of antibiotics for animal use if the same drug is used on humans. I hope that this, as well as other measures to curb this problem, will occur soon.

Thank you.

Sincerely,

Mary Becelia
