July 13, 99

Hello William Hubbard -

I am writing regarding JUL 19 P3:11

Docket # 98N-1038

Irradiation in Production, Processing + Handling of Food.

I do not approve of food irradiation at all. If such things are allowed, then, I, as a consumer request/demand that Food + Drug Administration require clear, honest Labeling of such foods.

Its bad enough that people irradiate foods, it is even worse and more serious of a crime to weaken labeling requirements in order to get irradiated foods marketed.

I support 1. Complete halt on production of irradiated foods

☆ → 2. Stringent strong requirements for CLEAR HONEST COMPLETE LABELING of irradiated food

Thank you -

C 4206
