June 22, 1999

Dear Dr. Henney,

I am writing to let you know that I strongly approve of banning human antibiotics in animal feeds. I am already trying to do my own part of reducing my use of antibiotics. I do not buy/use antibiotic cleaning products; I always take my full bottle of anitibiotics when they are prescribed for me; and I buy my dairy products and much of my meat without antibiotics used for the animals. My small efforts will be lost without major reform. Please help stem the tide of resistant strains of bacteria.

8318 99 JUL 12 P2:38

Sincerely,

Wina Mortenson
