4-24-99

Dear Comm. Heroney;

May I (we) urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. That can leave physicians with no way to treat life threatening bacterial infections in humans.

We folk have had some experience with baffling origins of illness. Health is more important than big money.

Sincerely, Marion Harris
Kenneth Harris
