July 18, 1999

To the FDA:

RE: Docket No. 98N-1265

'99 JUL 23 A10:14

I am most dismayed about the memorandum of understanding as published by the FDA on January 21, 1999.

The way it reads now, the MOU, as well as parts of the Compounding Section 503A of the Modernization Act, will limit physician + patients to get healthcare products from providers of their choice. It also hurts the rights of the compounding pharmacists to serve the public and their medical needs.

As someone who

98N-1265

C4411

is an American citizen and has utilized & benefited from delivery of compounded medication prescribed for me, I demand the MOU be amended. There should be no restriction to the delivery of a compounded medication prescribed for me, regardless of where I may live or travel.

Sincerely,
Joan DeRosa
