To Whom It May Concern,

I am writing regarding Docket No. 98N-1265. I am not in favor of the proposed MOU. I have been greatly helped by some alternative drugs and treatments.

This entire idea has me puzzled. Why would you try to restrict different treatments and hamper the existence of specialized pharmacies? We are only beginning to understand how effective other forms of medications are! Don't restrict their use or experimentation.

Who are you to decide how people should be treated to maintain their health? Don't play God!!

I have previously suffered for years because of traditional treatments and finally found the answer. Please don't do this!

You never know - someday your health (and someone you love) may fail. You might only be helped by one of these drugs that you're trying to eliminate!

Think about these consequences!

Sincerely
Dianne Burnett
