It has come to my attention that there is a "memorandum of understanding" MOU in regards to compound prescriptions. I am taking a compound Rx that is the only thing that works for me! Belive me my doctor and I have tried other things first, but nothing else works as well and without bad side effects.

I'm sure if you all needed to take a medication daily, to feel good and have well being, it would cause you great worry to have someone interfere with what you need!

* I disapprove of the MOU as currently drafted

I am counting on you to do the right thing -Michelle
