Re: Docket #98N-1038 Irradiation in Production Processing & Handling of Food

It is imperative, absolutely essential, that there is Prominent Labeling. the use of terms "Irradiation or Irradiated" and the use of the Radura Symbol on all foods where this process is used. Other terms are misleading. Irradiation destroys & causes changes in sensory & spoilage qualities that are not obvious or expected by the consumer — and other effects yet unknown or tested. Label requirements should not expire at a specific date.

Thank you

Sincerely,

Nancy Long
