re: Docket # 98N-1038

Dear Mr. Hubbard,

I am writing at this time to express my concern over the radiation of our food in this country. When food is irradiated, it loses much of its original value. My hope is that you are concerned for the health of American citizens.

It's my opinion that we have the right to know if our food is treated with radiation. So please require that irradiated food is labeled as such — that the international symbol for any product treated in this way be put on the label.

Thank you for your concern,

Linda Nystedt
