A single sunbeam is enough to drive away many shadows.
St. Francis of Assisi

Ref Docket # 98P-1194

To Whom It May Concern:

I am writing in support of the Center for Food Safety's petition calling for the FDA to reverse its approval of r-BGH, and have it pulled from the market. In the light of known research findings that indicate concern for humans and animals exposed to this genetically engineered product, not to mention findings suppressed by megalo-Monsanto who appears to value profit over safety, a recall of r-BGH seems to be an immediate, prudent, ethical necessity.

Thank you for your attention to this letter and this issue.

Most sincerely,

Erin Queenan C193
