Re; Docket # 98N-1038 "Irradiation in production, processing + Handling of food"

6917 '99 JUL 22 P2:12

To whom it may concern:

I am disgusted that as an american my rights to make choices about my life style are once again be bastenized. Improper labelling of hazerdous foods limits my ability to buy safe food for my family. Irradiated foods or products must be labelled; on the front panel, close to the name of the product. The statement must be easy to read and comprehensible, must have radura, the symbol of radiation. That symbol alone, however, is not sufficiant to alert me to the possibly poisonous substances being passed off as food in our grocerys. It is your responsibility to protect americas right to live safely.
