Rockville, MD 20852

Dear Mr Hubbard:

I am writing in reference to DOCKET No. 98N-1038 "Irradiation in the Production, Processing, And Handling of Food."

I am requesting your support regarding Clear labeling for foods subjected to the irradiation process. Under the best circumstances labels can be hard to read and understandi our co-op has magnifying glasses on the shopping carts for that purpose.

C4512

98N 1038

Please do all you can to ensure that the public has full & clear information regarding our food choices & purchases. This is of vital importance to me.

Thank You.

Susan Quinn
