7/6/99

Dear Ms Henney,

I am writing you to let you know that I am very concerned that foods which may have been genetically altered are entering the markets without being labeled as such.

As a consumer I want to be able to make informed choices about what I eat.

Therefore, I strongly urge you to take whatever steps are necessary to ensure that the following products are clearly labeled.

1. Genetically engeneered foods.
2. And products that contain genetically engeneered foods.

Science is not certain that these foods are safe! Personally, I am very frightened with the potential for disaster. My health and my families health is of primary importance to me. Please use your office to ensure that I can make an informed choice. I would appreciate a response from you with what ever action you can take to ensure this happen.

C5711

In Highest Regard,

Mark H Van der Saag
