RE: Docket # 99D-0557

It has already been shown that experimentation (pigs or otherwise) is unnecessary and unhealthy both for animals AND humans. The use of computers provides safe and accurate information that inhumane people seek from suffering animals.

I urge that IHH stop such barbarism and focus on REAL service to mankind by respecting the animals and STOP their barbaric suffering. As I've mentioned to you before, people who disregard the plight of animals certainly do disregard the plight of people. I do not want my tax money in your hands to create untold suffering for animals.

Sincerely,

Marylan Borg
