DEAR SIR,

XENOTRANSPLANT RESEARCH SHOULD BE BANNED COMPLETELY. HEALTH AUTHORITIES HAVE STATED THAT XENOTRANSPLANTS SHOULD BE BANNED BECAUSE OF INTERSPECIES VIRUS TRANSMISSION WHICH INCLUDES PRIMATES & PIGS. FORTY EUROPEAN COUNTIES HAVE BANNED XENOTRANSPLANTS. THERE ARE SAFER & MORE HUMAN ALTERNATIVES SUCH AS PREVENTIVE MEDICINE AND HUMAN ORGAN DONATION.

XENOTRANSPLANTS IS A BAD IDEA FOR BOTH HUMANS AND ANIMALS.
