7/26/96

Dear Ms. Henney,

As an american concerned about my - and our collective - health, I urge you to ban the use of antibiotics in animal feed. Adding antibiotics to feed in order to prevent disease can make bacteria resistant to those antibiotics. And that leave physicians with no way to treat life-threatening bacterial infections in humans. Both my uncle and cousin are impervious to all but the top antibiotic.

I support the petition filed by CSPI.

Sincerely,

Siobhan
