Dear Sir or Madam,
Re: Genetically Altered Foods
and their Labeling as such
as a concerned consumer.
I'm writing that the FDA require
Labels on genetically altered foods.
It is with the greatest concern
I write because these Altered
foods are in everything we ingest.
Bake goods, cereals, snack foods etc.
As a wise shopper and provider
of good nutritional foods for
my family. I would like the
right to choose what my family
eats. I wait patiently for your
response and thank you for
your attention in this matter.

Sincerely,
Mrs. Doris Andrews
