Re: 98N-1230 96P-0418 97P-0197 8.3.99

If the government is truly interested in reducing egg borne diseases, then the egg industry must be forced to ban forced molts of egg laying hens. Molting causes stress by starvation + water deprivation which leads to increased shedding of salmonella enteritidis. Stop the forced molting + eggs will be healthier for people
