Dear Commissioner Henney

I am a concerned consumer, and I feel that the national policy on rBGH labeling is not adequate for me to make an informed decision. I refuse to buy dairy products from cows treated w/ rBGH - and I urge you to adopt national guidelines regarding rBGH labeling. I feel this is my right at a citizen of the USA to know what harmful chemicals + hormones are in my food. Thank you!

Amy McMillin Caymeriller
