August 3, 1999

TO The FDA:

FDA must do more than put Bacteria warning labels on egg cartons and regulate egg refrigerators temperatures.
FDA should prohibit the practice of forced molting, because forced molting has been scientifically shown to promote disease by destroying the starving hens' immune system
FDA has jurisdiction to ban farm practices, such as forced molting, that injure human health.
FDA must ban the forced molting of laying hens, because forced molting is a primary cause of infectious diseases in hens, eggs The cruelty + contamination are linked

96P-0418

C81

FDA was petitioned in April 1999 to ban forced molting. The petition should be granted without further delay.

Sincerely,

Rae S. Sabella
