Re: Forced Molting in egg industry

Docket #s: 98N-1230; 96P-0418; 97P-0197

Please ban the forced molting of laying hens because forced molting is a primary cause of infectious diseases in hens, eggs, and consumers of eggs.

Please grant the April 1, 1998 petition to ban forced molting, as this is the humane enlightened approach.

Thank you for your consideration,

Kristin Reiter Grove
