Re/docket #s 98N-1230, 96P-0418, 97P-0197 } Request for public comments by FDA

The FDA has the jurisdiction + power to ban farm practices, such as forced molting, that injure human health. Forced molting should be prohibited because it has been shown to weaken the hens immune systems. It is the main cause of diseases in hens, eggs + people consuming these products.
The FDA was properly requested to ban forced molting in April of 1998. Please act to do so now.

Sincerely,
Dale Murphy
