To whom this may concern:

Ban Forced Molting of Hens!

it is inadequate to place warning labels on egg cartons + regulate permissable refrigeration temperature...

Forced molting destroys hens' immune systems and promotes microbial disease thereby

Forced molting promotes microbial disease in hens, eggs, and consumers of eggs.

The FDA petition of April 1998 to ban forced molting must be immediately granted. (See above caption, please.)

Sincerely,
Christine Constantino
